

User's Manual

Which wallets you can use to buy tokens

Tokens can be bought from wallets that support the standard ERC20. The most common wallets are:

- MyEtherWallet
- Ethereum Wallet / Mist
- Parity

Do not buy tokens directly from stock exchanges or exchangers!

Creating a wallet

To participate in the sale you will need an ethereum wallet supporting ERC20. If you do not already have one, we recommend using <https://www.myetherwallet.com>.

1. Go to <https://www.myetherwallet.com>

The screenshot shows the MyEtherWallet homepage. At the top, there is a red banner with the text "DON'T GET PHISHED, please! 🚫 Thank you! 😊" and a link "1. BOOKMARK MYETHERWALLET.COM". Below the banner, the header includes the MyEtherWallet logo, the date "3.21.15", language "English", gas price "Gas Price: 4 Gwei", and network "Network ETH (myetherwallet.com)". A note says "The network is really full right now. Check Eth Gas Station for gas price to use." The main content area has a title "Create New Wallet" and a sub-section "Enter a password". There is a text input field with placeholder "Do NOT forget to save this!" and an "eye" icon for password visibility. A blue button labeled "Create New Wallet" is centered below the input field. A note at the bottom left says "This password encrypts your private key. This does not act as a seed to generate your keys. You will need this password + your private key to unlock your wallet." At the bottom right, there are links "How to Create a Wallet" and "Getting Started". To the right of the main content, there is a sidebar with a question mark icon and the text "Already have a wallet somewhere?". It lists several wallet options: Ledger / TREZOR / Digital Bitbox / Secalot (hardware wallet), MetaMask (connect via extension), Jaxx / imToken (use mnemonic phrase), and Mist / Geth / Parity (use keystore file).

2. Enter a strong but easy to remember password. Do not forget it. Click the "Create New Wallet"

DON'T GET PHISHED, please! 🚫 Thank you! 😊

You can also view your Balances on [https://etherscan.io](#)

Buying ethereum

To participate in the sale you will need an Ether (ETH). You can purchase ETH using Visa or MasterCard bank cards through such services as:

- Changelly: <https://changelly.com>
- Cex.io: <https://cex.io>
- Coinbase <https://www.coinbase.com>

During the purchase you will need the wallet address created in the previous section. All services have different commissions and different rates. Make sure that the exchange rate suits you.

Buying tokens

In order to buy tokens you need to send at least 0.1 ether to the current crowdsale contract address: **PreITO - 0xa8Aa8cA08Fb065C5b619DB05c92d91b05688744C, ITO - 0x920601D7aD2256De7a18A2eD67627bA590B1b2A5.**

Before sending, make sure that:

1. You send at least 0.1 ETH (depending on the configuration of the sales contract, the value may be different. Look to minInvestedLimit at the corresponding contract).
2. The amount of gas is greater than 250 000.
3. Gas price — at least 30 Gwei. Transactions with less gas price will take longer.

If you are using MyEtherWallet, you need to do the following:

1. Go to <https://www.myetherwallet.com>

2. Click "Send Ether & Tokens"
